GWAC IDIQ Multiple-Award Contract

**Task Order Types:** Fixed Price, Cost Reimbursement,  
Time and Materials, and Labor-Hour

## About GSA's Alliant 2 GWAC

The General Services Administration's unrestricted government-wide acquisition contract Alliant 2 (GWAC) is a multiple-award, indefinite delivery/indefinite quantity (IDIQ) next-generation GWAC that federal agencies can use to purchase IT services. The contract has a \$75 billion contract ceiling and a five-year base period effective July 1, 2018 with one five-year option. This next generation GWAC offers comprehensive and flexible IT solutions worldwide, including new technologies that may emerge during the lifecycle of the task order.

Alliant 2 has earned a "Best in Class" status from the Office of Management and Budget, offering government agencies the choice to obtain customized, integrated IT solutions and access to "best in class" private sector IT services. The GWAC's scope includes big data, cloud computing, cybersecurity, agile development, biometrics and identity management, data center consolidation, health IT, modeling and simulation, mobile IT, web analytics, Internet of Things (IoT), virtual networking, and other related IT support services. Primary NAICS: 541512 – Computer Systems Design Services; task order scope is not limited to this NAICS Code.

Features of the A2 GWAC	Benefits of the A2 GWAC
A \$75 billion program ceiling and a five-year base period with one five-year option. Orders awarded within the effective period of the GWAC may extend an additional five years past the GWAC end date, through June 30, 2032	Allows for long-term planning of large-scale program requirements and decentralized ordering
Robust scope aligned with Federal and Department of Defense Enterprise Architecture reference models with flexibility to expand based on emerging technologies	Conforms to Office of Management and Budget (OMB) policy mandates for IT investments and is consistent with the current IT definition at any given time
All contract types, e.g., Fixed Price, Cost Reimbursement, Labor Hour, and Time and Materials	Offers flexibility of contract types for optimal risk mitigation
Access to exceptionally qualified “best in class” industry partners. Flexible teaming agreements at the task order level	Enables innovative, complex solutions for customers at competitive prices from experienced providers
Pre-competes, easy-to-use contract with streamlined ordering procedures based on FAR 16.505	Saves time and money by reducing procurement lead time
Complimentary scope-compatibility reviews offered by GSA’s Alliant 2 PMO and access to acquisition templates	Promotes contract compliance and reduces risk of adverse audits
No protests on orders \$10 million and under; except on the grounds that the order increases the scope, period of performance, or maximum value of the GWAC	Minimizes protest risk and supports timely order award for optimal mission support

Contracting officers interested in placing orders using the AMERICAN SYSTEMS Alliant 2 GWAC are required to attend a brief Delegation of Procurement Authority Training. This short webinar is offered every other week. All federal users including contracting officers, program office officials, managers, and executive staff are invited to participate in these complimentary webinars to learn how Alliant 2 can support their agency IT project initiatives. Warranted contracting officers must complete this training before requesting a Delegation of Procurement Authority (DPA), which will authorize them to issue orders against Alliant 2. The URL below provides a link to the next scheduled training:
